

I listen to K-LOVE every day, and DO NOT want to see this radio station disappear. It's the only station that has popular Christian songs on the radio-clean wholesome songs. I used to listen to country stations, but some of those songs are not teaching Christian values. Please do not expand the LPFM service to cause K-LOVE and stations like it to be wiped out. We are seeing an increase in teens being proud of their Christianity - they listen to K-LOVE and have CD's from a lot of the popular Christian artists - please don't take this away from them!
